WALL-STREET SHARES ADVANCE BRISKLY IN MOST LINES.

Western Stocks, Led by Atchison Preferred, Make the Greatest Gains-Local Trade Is Satisfactory.

At New York yesterday money on call was easy at 11/02 per cent.; last loan, 11/2

Prime mercantile paper, 3%@4% per cent. Sterling exchange was easy, with actual business in bankers' bills at \$4.881/4 for demand and \$4.84% @4.85 for sixty days; posted rates, \$4.851/2 and \$4.89@4.891/2; commercial

bills, \$4.84@4.84%. Bar silver, 59%c; Mexican dollars, 47%c; silver certificates, 30%c. At London bar silver was 271/2d an ounce.

Stocks of railroad companies made demonstration of persistent strength in the stock market yesterday. Whatever unfavorable factors developed during the day were ignored or their influence resisted and the resulting declines overcome. The bear element was so far impressed by the show of strength that they retired from the field before the day was over and did not repeat Tuesday's maneuver of a flerce raid in the industrial quarter, which on that occasion upset the market in the last fifteen minutes of the trading. The market showed itself much less sensitive than for some time to any depressing influence, and the close was distinctly firm at about the best level of the day, earlier losses in industrial stocks having been almost entirely overcome The stocks of Western railroads were

easily the leaders in the movement, and the buying was attributed to Western account, as for several days past. This Western buying is believed in Wall street to be covering an outstanding short interest, prompted by the good crop weather and the favorable conditions in the winter wheat belt. The leadership of the movement was shifted from Burlington to Atchiion preferred, which scored a clean net in of two points. The approach of the lividend meeting and the circulation of rumors that the stock would be placed on a 5 per cent. basis were used with effect. gton continued aggressively strong and scored an advance of 1% in spite of nials of the recent rumors that a reding plan was about to be announced. orthern Pacific gained as much, and the rength of these stocks affected the other ifics and ultimately the trunk lines, nich rose 1 to 11/2 points. The steel stocks all rebounded sharply on covering by shorts and official denials of assertions that general shut-downs were imminent on account of the prospective demands for increase of wages. The early weakness of Sugar, People's Gas, the tobacco stocks and other infustrials was met by denials of the various umors which accompanied the decline. coveries ensued on the demand from the bears caught short. Besides this weakness in the industrial list the market had to contend with the announcement of gold carements for export to-day fully \$1,000,-00 in excess of the preliminary estimate. To-day's shipments foot up fully \$3,150,000 for France. The fact that so large a shipment should be made in face of the coniderable decline in discount rates in Euope aroused some uneasiness lest the apent ease of money abroad was fictitious and unstable. But the continued ease of money here apparently relieved this apprension. Call loan rates fell to 11/2, and the gains by the banks from the subtreasury evidently will offset the gold exports. Al-

though the advance in stocks was general-

ly wiped out when the gold engagements

were announced, the upward movement

was resumed upon further consideration

of the circumstances. It is the conviction

They are liable at any moment to get into his eye while he has his head out the cab window, and hardly anything could be named that is more painful or disabling. A chunk of carbon half the size of a pin head will put a man out of action in thirty seconds, while the inflamed tissues immediately contract and frequently render the fragment very difflout to find. All that is remedied by cocaine. A few drops destroy all pain, cause a relaxation of the lid, and, in nine cases out of ten, the cinder is located and removed without trouble. It's a common down on his bench while the fireman uncorks the cocaine bottle and proceeds to play surgeon on a damaged optic. I can't say whether the habit is ever contracted from this practice, but it is undoubtedly dangerous. Experienced travelers very frequently carry cocaine for the same pur-

pose, and in examining a handsome English-made toilet bag the other day. I noticed a special pouch for the bottle among

UNFAVORABLE WEATHER AND DE-CREASED VISIBLE THE FACTORS.

> Corn Led the Market, Advancing Cent and a Half-Wheat and Oats Strong, Provisions Higher.

CHICAGO, May 16 .- Corn was the leading deal on the Board of Trade to-day. Renewed support from bulls and covering by shorts, together with strong cables, caused a gain for the day of 11/2c. Wheat was strong on the unfavorable weather, closing 1/2%c improved. Oats closed %c higher, and provisions from 71/2c better in ribs, to 20c up in pork.

The corn market opened stronger on higher Liverpool cables and in sympathy with wheat, July 4@%c over yesterday at 35%c. Almost immediately the bull contingent entered the pit, buying heavily. Shorts, in a scare, followed suit, and as there was a broadening demand from the commission house trade and a fair cash business, the market advanced with great activity, July, near the end of the session, touching 381/sc. The close showed the strength well held, July 11/2c higher at 38c. The bulls who came to the support of the market were the same ones, in most cases, who have been selling recently, especially yesterday. Receipts were light, 119 cars here and country offerings small. New York reported 44 loads taken for export. The wheat market to-day was active

nearly all the session, and the tone strong. The factors were reports of unfavorable weather-too much rain in the Southwest and lack of it in the Northwest. One Dakota correspondent declared that the ground was dry as a board several feet down. The weather in France, Germany and England was also said to be unfavorable to the wheat crop. Liverpool was higher and Bradstreet's world's visible decreased 4,300,000 bu. The corn strength was also a support, especially during the latter half of the session. The cash demand was rather slack, and New York reported only five loads taken for export. Primary 297,000 bu last year. Minneapolis and Duluth reported 175 cars, against 261 last week and 218 a year ago. Local receipts were 16 cars, none of which graded contract. Atlantic port clearances, in wheat and flour, were

equal to 160,000 bu. In oats the feature was the covering of a heavy line by one man. He was credited with buying 750,000 bu. The market felt the corn strength, as well as some complaints from Illinois concerning the crop prospect. Trade was rather quiet. Recelpts here were 85 cars. July sold between 22c and 22%c, closing %c over yes-

terday at 221/4c. Provisions were quiet but strong. A firm hog market was felt early and soon after ence. There was a decrease in hog receipts and Liverpool was higher for products. The outside demand showed some broadening, and there was a fair demand for lard and ribs from packers. July pork sold from \$11.67% to \$11.90 and closed 20c over yesterday at \$11.87½; July lard from \$6.97½@7 to \$7.10, closing 12½c improved at \$7.07½@7.10,

and July ribs from \$6.611/2 to \$6.75, with the close 71/2c higher at \$6.7214. Estimated receipts for Wheat, 36 cars; corn, 160 cars; oats, 90 cars; hogs, 27,000 head. Leading futures ranged as follows:

Available Stocks of Grain.

NEW YORK, May 16.-Special cable and telegraphic communications to Bradstreet's show the following changes in available supplies from the last acounts: Wheat, in the United States and Canada, east of the Rockies, a decrease of 3,666,000 bu; afloat for, and in Europe, a decrease of 700,000; total supply, a decrease of 4,366,000. Corn, a decrease of 2,085,000 bu. Oats, an increase of 352,000 bu. Among the more important decreases to Bradstreet's, not given in the of 780,000 bu at Manitoba storage points; 500,000 at Northwestern interior elevators; 133,000 at Chicago private elevators; 96,000 at Coteau, and 55,000 at Cleveland. The principal increases are those of 161,000 bu at Depot Harbor, and 70,000 at East St. Louis. The aggregate stock of wheat at Portland, Ore., and Tacoma and Seattle, Wash., decreased 118,000 bu last week.

May 16.-Cattle-Receipts, 900; shipments, 100. The receipts of cattle were unusually large for this time in the week, and larger than at any time since the last of March. A large proportion of the arrivals were steers, including quite a number of good export grades, but no strictly fancy kinds. The market opened with salesmen asking steady prices, and later, with good competition between buyers, especially local killers, the offerings were changing hands promptly, and a good clearance was made at steady prices. In the female cattle line the market was active, and steady to strong prices prevailed. The calf market was again lower, the top being \$6.75 and

UNION STOCKYARDS, INDIANAP-OLIS, May 16 .- As a natural result of the exceedingly liberal receipts of horses last week, the marketing this week has been of small volume. Shippers probably anticipated a limited demand, and evidently there has been no effort to get stock on the market. The different stables did not receive enough to warrant them holding a separate sale, and the supplies were all thrown together and disposed of in one sale. Around 100 head were offered, consisting principally of chunks and heavy horses. The attendance of buyers was small, but large enough to exhaust the supply, and, with the quality generally satisfactory, the offerings were disposed of at quotably steady prices. There was rather a quiet feeling in the market from the beginning to the close, and the bidding was not as free as usual, but a good clearance was made, and the last sales did not show any quotable change in prices compared with the opening. Draft horses sold as high as Original Widows-(Special accrued, May | \$160, and other sales were reported as low
